

Introducing the
ZPrinter 450

World's Most Automated and
Affordable Color 3D Printer

Z CORPORATION

ZPrinter® 450 at a Glance

World's most automated and affordable color 3D printer

- Output precise, 450 dpi color 3D models/prototypes, 5x-10x faster than competing printers at half the cost
- Ideal for MCAD, education, architecture, medical, geospatial, and electronic arts applications
- Automation simplifies printing and saves time (40% less touch time)
- Compact, all-in-one printing and powder recycling
- Sets new standard for office compatibility with office-safe build materials, active dust-control, and zero liquid waste

Making Color 3D Printing Accessible

- First *color* 3D printer to break the \$40,000* price point
- A giant step in making color 3D printing accessible and suitable for everyday use
- A superior alternative to monochrome 3D printing, or the outsourcing of color prototypes and 3D models
- Produce models for less than half the cost of other 3D printing technologies

Bold, Contemporary Product Design

* Manufacturer's Suggested USA List Price for printer only.
Options, shipping, local taxes, and duties not included

Speed and Accuracy

- Industry's fastest build speed (5x-10x faster)
- Build 3D models in hours, not days

Brilliant Color

Z CORPORATION

- One-of-a-kind color capability
 - Dramatically communicates the look, feel and style of engineering product designs, architecture, landscapes, and medical models

Exceptional Detail

- High-quality part detail and surface finish
- Precise, 300 x 450 dpi resolution

Features

Z CORPORATION

All-in-one, Feature-rich

Z CORPORATION

Setup & Maintenance

Quick-Load Binder Cartridge

- New, no-touch binder cartridges
- Load 1 liter of binder in seconds

Setup & Maintenance

Quick-Load Print Head

- Change print heads 66% faster
- Revolutionary, single tri-color print-head design

Z CORPORATION

Setup & Maintenance

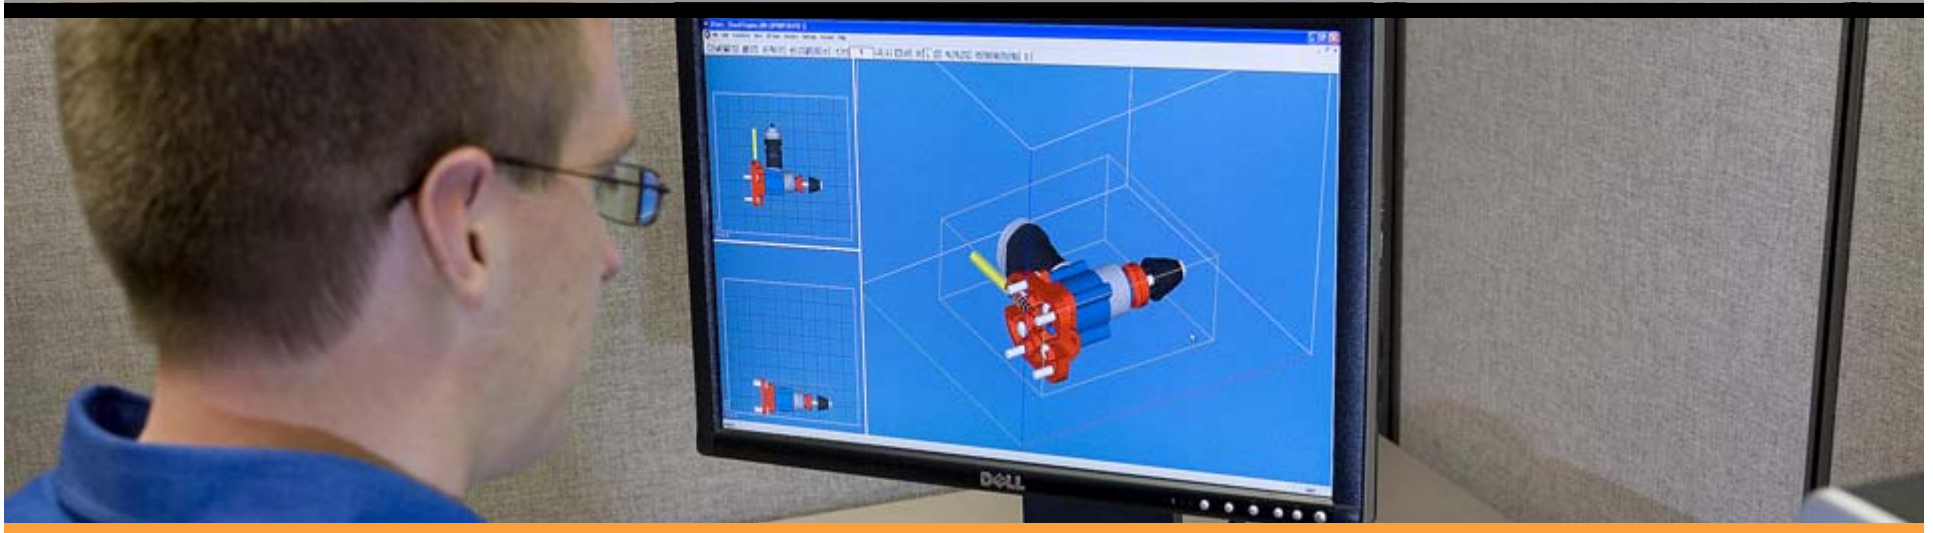

Quick-load Powder Canister

- Fast, automatic powder loading
- Clean, no-touch powder canister

Greater Control

From the Desktop & the Printer

- Next-generation ZPrint® desktop software
 - Easier than ever to send jobs to the printer, and exchange essential information with the machine
 - Remotely read the machine LCD display
 - See real-time readings of powder, binder, and ink levels, automatically monitored by the system

Greater Control

From the Desktop & the Printer

- Expanded printer display & interface
 - Enjoy the option to perform numerous functions from the printer, previously possible only in software
 - Expanded machine display communicates far more data

Easy Post Processing

- After printing, the ZPrinter[®] 450 removes up to 80% of powder automatically

Easy Post Processing

- Remaining powder is removed with air in enclosed chamber
- Automatically recycled for future use

Easy Post Processing

Z CORPORATION

- No physical supports to remove with tools or chemicals, like other 3D printers

Easy Post Processing

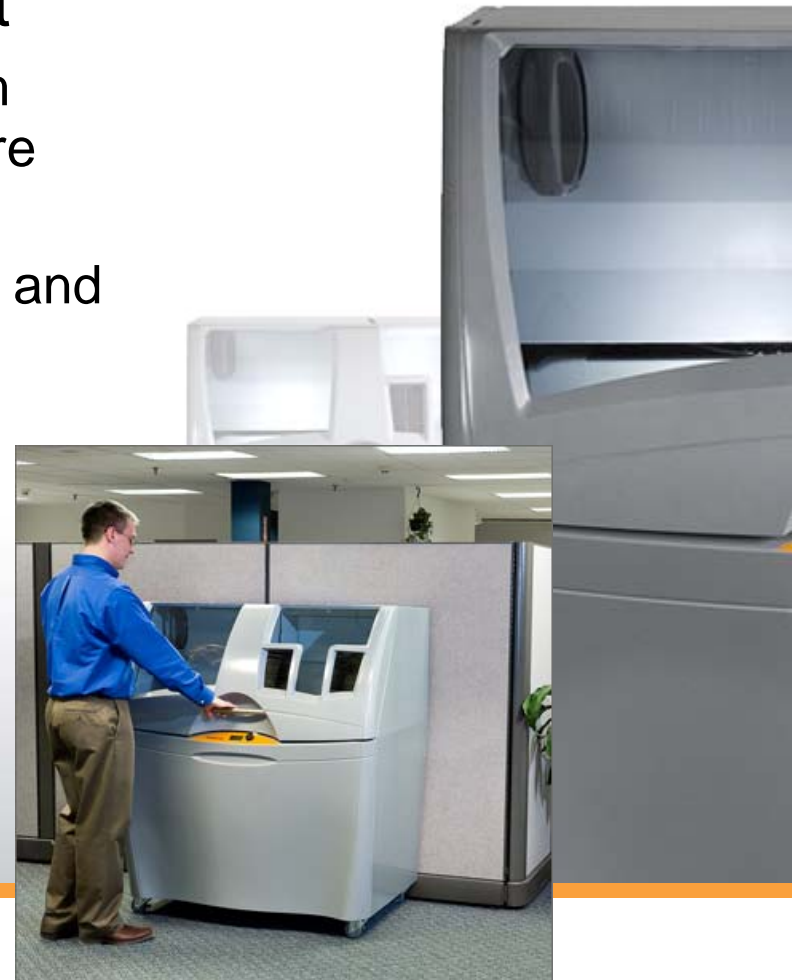

- Easily Add Strength With Infiltrants, via Dip, Drip, or Brush

Sets New Standard for Office Compatibility

- Active & passive dust containment
 - Continuously operating, quiet vacuum maintains negative pressure to capture airborne dust
 - Closed-loop powder loading, removal and recycling contains powders within the envelope of the machine
- Office-safe, eco-friendly build materials
- No hazardous liquid waste

ZPrinter[®] 450 Specifications

Z CORPORATION

Build size	203 x 254 x 203 mm (8" x 10" x 8")
Color	Yes, single tri-color head
Print resolution	300 x 450 dpi
Layer thickness	.089 - .102 mm (.0035" - .004")
Build speed	2-4 layers/minute
Compatible materials	zp130

Bringing it All Together

- Now bring 3D concepts to full-color life easier and more affordably than ever, with in-house 3D models
- It's fast. Automated. And office-friendly
- It's the ZPrinter 450 from Z Corporation, the leader in 3D printers and scanners, and maker of the industry's only color 3D printers
